

## SUSSEX WOODSTOVE SERVICES - STOVE PICTURES & PRICES SUMMARY

FULLY DETAILED BROCHURES FOR ANY STOVES THAT YOU LIKE ARE AVAILABLE AT THE WORKSHOPS

The kW rating is the NOMINAL with standard laboratory test loads. Maximum output with 50% of firebox fuel loads may be 25% higher. Allow 1kW per 14 cubic metres of room volume: upsize by say 25% in taller and/or colder rooms, otherwise you may well become overheated. All new stoves meet BS/EN13240 and are HETAS & CE-approved. We prefer to supply "Cleanburn" DEFRA-approved low-emissions stoves.

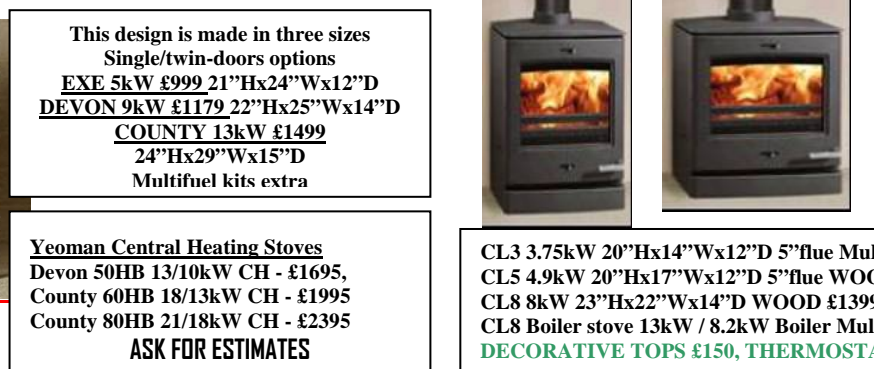

### FROM DORSET - "SMOKELESS TECHNOLOGY" SALTFIRE STOVES - Cleanburn, Airwash models, 5kW to 8kW, all DEFRA-approved - Top Value
